

"Today my jaw was so painful (it felt like a hard, tight mass and hurt to bite). It hurt to eat when I took a bite of an Arby Jr. After treatment I had a release through the neck and spine, and my jaw released to much greater ease." – K.K.

"I came to Dr Barbour's office a day after a bad fall, bending my knee in a bad position. It was painful and hard to walk on. I also had been suffering from tinnitus and vertigo attacks. After seeing Dr Barbour and his team at the Healing Circle, the ringing in my ears is very much reduced along with the feeling of spinning. My knee pain is almost gone and I feel comfortable walking. He says I won't feel a think in 3 days. Thanks, Dr Barbour and Team!" – F.Z.

"The therapists and staff at this facility are fantastic. Tim is absolutely wonderful and unforgettable. Dr Barbour is hands down the 'best ever.'" – S.M.

"Knee is better, more strength in it." – Shirley

"I have had groin injuries for 5 years from playing hockey. I have been to my family doctor, a surgeon, and no relief has come from physical therapy. Coming to Dr Barbour's Healing Circle clinic for five visits have made me pain free.-A.P. Dr Barbour and his Healing Circle actually put me back together. Dr Barbour was able to give me my life back. I now have my life back. I feel like a human being again. I swear by them." -- D.R.

"Pain was unbearable . . .within two sessions it was gone." -- K.E.

"The treatment helps." -- C.W.

"I had a piercing pain in the side of my right leg, piercing into my hip socket, down to my knee and up to my butt cheek, that is totally gone! I had pain in four areas of my back; the pain has decreased and continually making progress." -- C.E.

"I came in with great pain. With the proper manipulation, it relieved the stress and pain." -- K.A.

"Dr Barbour said in 6 weeks I should feel better. I couldn't believe him -- that sounded like a miracle. But sure enough at the end of six weeks I felt totally healed." -- I.H.

"I feel like a new person. It feels great." -- K.P.

Lora Cooper

**I was having low back pain and had physical therapy for two weeks and my pain was gone. Then I had a Healing Circle treatment and John noticed I had a problem with my right shoulder which Tim also confirmed during a massage. I had PT for my shoulder and now feel complete again. I have absolutely no pain, and it is wonderful. Thanks so much to the entire Rehab Specialists staff. You're all wonderful!**

## Success Story

Daniel Hays

**Over the July 4<sup>th</sup> weekend, I was in extreme pain. I called and made an appointment the following morning with Dr. Barbour. I was able to get in to see him at 10:50am. The pain was such that I wasn't able to stand long enough to take a shower. Upon seeing the doctor, he found a muscle in my abdomen that was cramped up. He was able to get it to release.**

**After I left his office a few hours later, I was able to walk around the grocery store for about 45 minutes.**

**Thank you Dr. Barbour and the rest of the PT staff.**

## Deborah Duchene

**In late September of 2015, I tripped outside and fell in the neighbor's driveway hitting the back of my head on his Jeep bumper on the way down before landing.**

**I was walking our dog, Paige-a basset hound, at the time.**

**I felt the back of my head with my hand and it was covered in blood. I thought to myself, Deb, you really did it this time. Little did I know that Paige had gone to the neighbors and got help. 911 was called and I was on my way to the hospital. There, I got six staples and two stitches and the head wound would not stop.**

**After eight hours, my brother was able to drive me home.**

**I had very bad dizziness and headaches for two months. I went to my family doctor and eye doctor.**

**The family doctor wanted to prescribe pills and the eye doctor said nothing was wrong. I talked with my sister-in-law, Sherry Cunningham, and she suggested that I see Dr. Barbour. I thought why not, nothing else is working. I was so happy when I did. The headaches were gone within one visit and the dizziness after five treatments. I am finally feeling like myself again.**

**I would recommend Rehabilitation Specialists of Monroe to anyone. Everyone that helped me are lifesavers and I would say, "Thank you", from the bottom of my heart. Everyone there is very helpful and understanding. I don't know what kind of shape I would be in if it wasn't for your help.**

### SUCCESS STORY

Please write, in your own words, what your success here has been:

I am pain free and my range of motion is greatly improved. My neck and shoulder were completely locked up. Moving was painful and daily activity was almost impossible. Dr. J was able to complete an assessment and began treating me the same day. There was a real improvement from the first treatment on. Pain began to decrease and physical activity began improving slowly. Attending the healing circle weekly was important to my recovery. I attended several weeks and also had another appointment with Dr. J. Learning the stretches also assisted with the range of motion issues. The staff was caring and pleasant to work with. Thank you!

### SUCCESS STORY

Please write, in your own words, what your success here has been:

I was treated by Dr. Barbour & Karen for a few weekends from May-Nov. I live in WA state & was fortunate not only to have medical treatments but to take the seminar courses Dr. Barbour offers.

The treatments were amazing! Before the treatments, I had a knot on my head about half the size of a golf ball - it had been there all of my life. My treatment consisted of manual therapy; cranial therapy, in and out of the water.

The end result has been life changing. Prior to treatment my thoughts & emotions were caught in a negative pattern. They were worrisome and were stuck in a pattern of fearful thoughts playing over & over. I felt obsessive & depressed. I also had right shoulder pain and left hip pain - I could not do what I wanted to do, it hurt that much.

Miraculously, the knot on my head decreased over three-fourths of its size - The pain was gone & has been gone since August 2012. The most subtle changes have been with my thoughts & feelings. Those repetitive fearful thoughts come far & few between. I feel happier - stronger and more centered - more solid. I can breathe better & have tolerated our dark winters in WA better than before. I am so grateful to Dr. Barbour & Karen & the Center for this help.

I had a very run down feeling and achy all over. I knew my immune system was very low. I went for a treatment to Dr. Barbour. He gave me the chest compression and some other pressure releases. Right away I started to improve my condition. The next day I felt back to 100% better. It almost felt like magic!

I came to Healing Circle was told I would be able to move 25% better I did not believe at first, after several visits at the Healing Circle with Dr. Barbour and the therapists I improved movement 50% better. I am now able to bend over and touch my toes & put my own socks on. I want to THANK Dr. Barbour & All the therapists.
