Please write, in your own words, what your success here has been:

I am a nurse whose job it is to start I.V.'s  
For the past seven years it has been  
increasingly difficult to do this due to  
decreased sensation in my hands (and  
decreased fine motor movement). After just  
over a month of therapy and two  
adjustments by Dr. Henderson, I have  
noticed that it is much easier to  
start I.V.'s!

### SUCCESS STORY

Please write, in your own words, what your success here has been:

Both hands have been getting progressively numb/tingling, first just at work chairside (dental hygiene), then being a 24-hr. type dis-ease. Being here & getting P.T. on arms/neck, stretches, etc & for the first time in months this last weekend was almost numb/tingle free 😊 Great Job, Specialists.
