

“When I started with Dr. Barbour, I was defiant and out of control, depressed, dishonest, and wouldn’t listen. Through working with Dr. Barbour, my mood improved, I tell the truth more, more honest and the outbursts of anger have greatly decreased. After each appointment, I notice usually a better mood.”

Thank You Dr. Barber

When I first came in I was mad because I got in trouble at school. When I saw Dr. Barber he asked me why I was here. And I told him because I have a lot of stress built up. Then he used a kind of electric hammer. It tickled but I kept from laughing. When I came out of Dr. Barber's room I felt dizzy and my mom told me that was a side affect. When I got home I felt better than ever.

## SUCCESS STORY

Please write, in your own words, what your success here has been:

My baby was not sleeping, <sup>very very</sup> fussing, <sup>ussy</sup> up for 12 hrs @ a time & never comfortable.

Now she goes right to sleep & seems more comfortable after just 1 treatment - I'd say about 75% better.

# MY SUCCESS STORY

## BY RYAN RUTLEDGE

Dear Dr. Barbour,

On Monday I began coming down with something, I came home from school early and still I was feeling miserable. My nose was stuffy, I was sneezing and had a major headache. My mom was telling me that I should come to the kids clinic, as usual I took my mom's advice and came in. I waited in the lobby until my name was called, all the seats were full; I took that to be a good thing. Finally, my name was called I was walked back into the room and laid down. The doctor came in and explained the 3 rules:

1. Relax

2. Don't hurt the doctor

3. Speak up if it hurts

He then proceed to do a number of things with complex functions and names, all I knew is that they were making me feel better as he went along. He said I was done and that I should come in more often. By the time we had made it the car I could breathe better than I could in the past week. I can tell you one thing: I will certainly be back again.

Thank You,  
Ryan

Profound intelligence, education and sincere caring make Dr. Barbour a treasure.

I do not understand how he does what he does - but I do know he has a gift to do it so well.

Our granddaughter was unable to turn her head to the left side from the time she was born until she saw Dr. Barbour at 8 months of age. She was able to move her head fully after her 1st visit with him!

My 83 year old mother was visiting here from Calif. She felt + looked better - also after one visit to Dr. Barbour. Her range of motion has been significantly improved.

I've been going to Dr. Barbour for 11 years - + he has greatly improved my quality of life - I can not express how much I value and appreciate him.

Sincerely,  
Pat Beach

Dear Dr. Barbour & Staff,

As some of you might know it has been a very long seven months for our family. Jenna came down with flu like symptoms that included abdominal pain. She was hospitalized early last Fall. She also had extensive studies done and it was assumed that her appendix was most likely the problem.

We were then sent to a very good GI clinic in Michigan. After undergoing more thorough testing. She had the appendix removed in October.

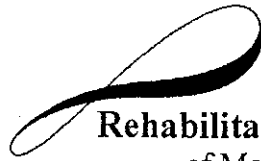

She recovered only with the same pain. She was then advised to see a Multidisciplinary Pain Clinic. She went through a series of Manual Therapy, Continued having abdominal pain. By this time you can just imagine how drained she was. She had already missed a great portion of the first semester of school. No one special person seemed to be grasping the problem. After a lot of frustration and excessive fatigue I decided to get a second opinion. I had heard that Dr. Barbour worked with manual medicine

and also with children on a Sport Team.  
We made the appointment and began  
seeing nice results. Jenna was finally  
starting to regain a sleep pattern which  
allowed her body to strengthen. The  
abdominal pain started relieving.

Its just so nice to have my little  
girl back again.

Thank you Dr. Barbour for all of  
your help.

Please write, in your own words, what your success here has been:

After visiting DR Barbour my son's colic greatly improved. Before our first visit Hunter only slept between 6-8 hours in a 24 hour period. Now he is sleeping through the night, He would scream almost the entire time he was awake and after our time here he no longer cries all day long. We greatly appreciate Dr. ~~Barbour's~~ Barbour's help.
